A Report to the Citizens of Guam Fiscal Year 2016

To maintain and effectively manage the destiny of all public lands considering the social and economic factors;

To ensure an effective management regulation and control of developments determined to be the best public interest for its continued social and economic welfare;

To operate with positive and dynamic philosophy of working hard, following the law, and giving each customer a “WOW” experience;

To automate and secure Geographic and Land Information Systems within the Department;

To ensure the Records Section adequately provides for the public demand for Certificates of Title and Abstract Research;

To manage the operation of the Department’s legal mandates;

To enhance customer service with improved performance standards;

To implement and complete programs established by Public Laws affecting the Department; and

To ensure security of Records and implement the automation and digitalization of all recorded documents.

Goals and Objectives

To provide management functions and leadership to the department staff. To provide the tools and resources and training to accomplish directed and authorized programs, projects and services. To approve, direct and oversee the department’s operations, fiscal and property accountability.

1. Provide general administrative direction and operational function of the department’s programs.

2. Provide the department’s financial resources towards accomplishment of directed and authorized programs.

3. Provide for facilities maintenance support.

4. Provide personnel support.

5. Provide fiscal and property accountability of the department’s assets.

6. Obtain capital funding for the construction of a modern land records vault and library.

7. Provide the resources to update and keep current the recording indices.

8. Provide technological applications of systems that facilitate efficiency.

9. Continue to pursue the financing of the department’s new facility.
Our Progress

Director’s Office

Future Challenges

- The Department of Land Management continues to experience a reduction in manpower due to budgetary constraints but our challenge is to continue to provide all our mandated services. Incorporating technology to reduce or divert man-hours to other efforts is a path worth investing. However, quality of our work must always be a prime objective in every task, from review of survey maps to the issuance of certificates of title.

- Ensuring the department’s digital data, which includes real property recorded document, is safeguarded and readily available always remains a priority. Our challenge is to stay at the forefront in information technology.

- Just as important are the original documents recorded at the department. These documents serve as the historical record of real property dating back to the Spanish era on Guam. Keeping these documents protected from all natural and manmade adversities remains a tasked entrusted to the department. DLM continues to move forward in building its own resource facility complete with a modern document storage area to include a library and customer service area to manage all real property matters.
