OUR CHALLENGES

AFFORDABLE HOUSING INVENTORY

The availability of homes for purchase in the low to moderate price range continues to be an obstacle for borrowers. While many applicants are able to receive pre-qualification, very few homes are available to purchase within their price bracket. Additionally, the rising cost for materials, the skilled labor shortage, as well as the numerous large military and private sector construction projects that are currently underway make it increasingly difficult for borrowers to find contractors willing and able to enter into contract for a single family home construction project.

RENTAL HOUSING MARKET

The rental market continues to see rates priced beyond the reach of low to moderate income families due in large part to the higher rents paid by the Military market in Guam. These higher rental payments have driven up the prices for many rental units beyond the payment ability of low to moderate income families. An increase in the inventory of affordable rental units is needed to address the need for rental housing for families in the low to moderate income range. GHC is challenged with obtaining funding to complete renovations to an additional 14 units in Dededo and 24 in Yigo.

COVID-19

The COVID-19 Pandemic continues to negatively affect the finances of many families on Guam. GHC is challenged with assisting tenants and mortgagors in developing a reasonable schedule for payment. Further, we must continue to identify available relief programs and encourage tenants and mortgagors to apply for assistance.

The GHC Dads were honored with a luncheon in celebration of Father's Day 2021.

OUR OUTLOOK

The following are upcoming projects and events for fiscal year 2022:

- Renovate an additional 14 rental units at Lada Gardens and Sagan Linahyan, Dededo and 24 units at As-Atdas, Yigo.
- Complete the installation of typhoon shutters for 33 units at the Lada Gardens properties under a hazard mitigation grant.
- Build multiple affordable homes on identified CLTC lots to showcase alternative building systems, sustainable materials, and energy saving designs. They will be utilized as model homes to provide the general public with information and access to physical examples of available affordable building systems and the developers/contractors who build them. After the model home period is concluded, the goal will be to provide financing for the purchase of these homes by qualified CLTC lessees.

In partnership with the Department of Youth Affairs, GHC participated in the 2021 Summer Youth Program. Pictured are GHC Staff with our Summer Interns on their final day.

GHC received the "Excellence in Citizen-Centric Reporting Platinum Award" for fiscal year 2020 from the Association of Government Accountants Guam Chapter.
