VISION

The Government of Guam is a model for good governance with OPA leading by example as a model robust audit office.

CORE VALUES

- Objectivity
- Professionalism
- Accountability

WHO WE ARE

Public Law 21-122 established the Office of Public Accountability (OPA) in July 1992 as an instrumentality of the Government of Guam (GovGuam), independent of the executive, legislative, and judicial branches.

We seek to achieve independent and nonpartisan assessments that promote accountability and efficient, effective management throughout the Government of Guam.

We seek to serve the public interest by providing the Governor of Guam, the Guam Legislature, and the people of Guam with dependable and reliable information, unbiased analyses, and objective recommendations on how best to use government resources to support the well-being of our island and its constituents.
